

JAN 29 1958

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT: Identification of Agency Staff Personnel to Foreign Intelligence Services

REFERENCE: Memorandum dated 7 January 1958, same subject, from Deputy Director of Security

25X1A9A

1. We agree with Mr. [] that we do not, at the present time, have an adequate record of exposure of our personnel to foreign services. Needless to say, as individuals are reassigned, earlier contact with foreign services is taken into account, and the potential consequences to cover are weighed. Nevertheless, as time goes on, the pattern of assignments becomes more and more complex, and having this information in a central file will become increasingly valuable.

2. We feel that the proper place for this information is the CS Career Service file which is maintained for all CS personnel by the CS Career Management Office. All personnel actions, including reassignments, go through this office, and this file is consulted in every case as panel action is prepared. It will, of course, be possible for the Office of Security to consult these records as needed. Similarly, we feel that it should be a DD/P function to obtain the necessary information from CS employees. We shall conduct this survey at an early date.

25X1A9A Mr. [] 3. Subject to this modification in procedure, we concur in proposal.

Richard Helms
Chief of Operations, DD/P
